Bangalore, India

SUMMARY

Senior Software Engineer with 5+ years of experience building scalable web applications using **React.js** and **Next Js**. Recently expanded into **AI/ML** and **Generative AI**, with hands-on experience in developing **RAG-based systems**, **chatbots**, and **document question-answering solutions** using **Python**, **LangChain**, **Hugging Face**, **FAISS**, and **Chroma**. Experienced in integrating **LLMs** into real-world applications, implementing **RBAC (Role-Based Access Control)**, and optimizing **information retrieval pipelines** for accurate, context-aware responses. Strong foundation in **full-stack development** with a growing focus on building **end-to-end AI-powered systems**. Actively transitioning into **AI/ML-focused roles**, leveraging strong engineering experience to deliver **intelligent and scalable solutions**.

SKILLS

- **Languages:** JavaScript, Typescript, SQL, Python
- **Frontend:** React Js, Next Js, Redux Toolkit, RTK Query, tailwind CSS, MUI, Jest
- **Backend:** FastAPI, REST APIs, Node Js,
- **Databases:** PostgreSQL, S Q L
- **AI/ML:** Generative AI, RAG, LangChain, Hugging Face, Prompt Engineering, FAISS, Chroma, NLP (Basics)
- **Tools:** Git, Jira, Azure Boards

WORK EXPERIENCE

- **Nusummit Technologies Pvt Ltd (NSEIT)** Bangalore
June 2025 - Present
Senior Software Engineer
 - **Backend(Python, LLM):** Developed and enhanced an AI-powered Siddhi Chatbot using Retrieval-Augmented Generation (RAG) to provide accurate, context-aware responses based on policy documents and business rules.
 - Implemented channel-based access control (CBAC) by validating user identity through agent codes and mapping users to specific business channels, ensuring secure and relevant information access.
 - Designed logic to restrict responses based on user channel, ensuring users receive only authorized policy-related information and preventing out-of-scope queries.
 - Implemented fallback and guardrail mechanisms to handle irrelevant or out-of-domain queries, prompting users to ask channel-specific questions.
 - **Frontend:** Developed the plan creation module for capturing insurer and proposer details and displaying eligible plans.
 - Built the rider selections page enabling users to add riders to plans with dynamic premium calculation.
 - Implemented PDF generation for selected plan and rider details to provide a consolidated quotation.
- **SLK Software(SLK Group) Pvt Ltd (Includes V labs Pvt Ltd)** Bangalore
Nov 2022 - June 2025
Senior Software Engineer
 - Developed a web-based verification portal, improving data review and validation efficiency and reducing processing time by 90%.
 - Designed and implemented document upload and categorization workflows based on process types, enabling streamlined and structured data handling.
 - Implemented data highlighting, editing, and validation features to enhance data accuracy and maintain record integrity.
 - Optimized document review workflows by integrating advanced viewing and interaction capabilities, improving overall user efficiency and experience.
- **Armorize Technology Solutions Pvt Ltd** Bangalore
Nov 2020 - Oct 2022
Associate Application Developer
 - Developed responsive user interfaces using Java, JavaScript, HTML, and CSS, integrated with backend APIs, and contributed to UI components, debugging, and code quality through code reviews.

PROJECTS

- **RBAC-Based RAG Chatbot (Personal Project):** Built an AI-powered RAG chatbot with RBAC to deliver secure, channel-based document Q&A using LangChain, Hugging Face, FAISS, and Chroma. And frontend Next Js.
- **Ai Voice Agent:** Building a real-time AI Voice Agent using LiveKit, Groq LLM, and RAG (ChromaDB) with speech-to-text, text-to-speech, and VAD for natural customer support conversations.

CERTIFICATIONS

- **IBM Data Science Professional Certificate** – IBM (2026)
- Gained hands-on experience in Python, Data Analysis, Machine Learning basics, and data visualization. Pandas, Numpy.
- **Credential :** [IBM Data Science Professional Certificate](#)

EDUCATION

- **BTech Civil Engineering** – VVIT (2016-2020)
